**WINTER TRAVEL:**Air Travel Restrictions

With cooler temperatures and increased passenger and cargo loads, airlines are implementing winter restrictions for pet transportation. We recommend checking with your specific airline for updated requirements, including health certificates, vaccinations, and kennel dimensions. Planning to travel out of state or internationally? Each country has unique pet import regulations. Familiarize yourself with the destination's vaccination, health certificate, and documentation requirements. Consult your vet and relevant authorities to ensure compliance.

To avoid delays, contact your vet at least two weeks in advance.

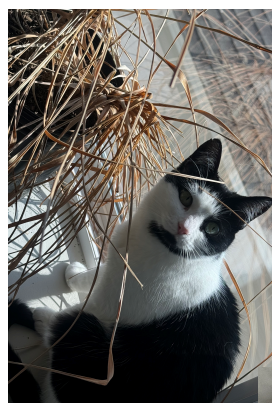

Car Travel

For road trips, keep your pet secure in a carrier or harness to reduce distractions and ensure comfort. Plan for breaks to allow your pet to stretch, relieve stress, and stay relaxed. Make sure tags are up to date, and get them microchipped in case they get out and lost on the road! Preparation is Key! Schedule a veterinary checkup well in advance to assess your pet's travel readiness and gather necessary documentation. Planning ahead can help reduce stress and ensure a safe, enjoyable trip for you and your pet. By following these tips, you can help ensure a smooth travel experience for you and your pet this December. If you decide to leave your pets home while traveling we are always here for your boarding needs! BOOK EARLY!! We will sell out quickly!
