For March get 20% off of Dental products (Toothbrushes, Toothpaste, dental treats etc) in the lobby. Excludes T/D food

Ask Malaa!

Why is the fur on my dogs paws changing color?

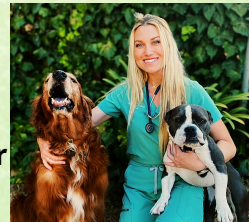

Ooh a science question! Ok the rusty reddish color comes from something called porphyrins (I don't know what those are) in our

saliva when we excessively lick at our paws. Most commonly caused by allergies, irritation, or discomfort. Could possibly also be a yeast infection! Better get that checked out. Keep asking questions -send them to VALLEYAH@GMAIL.COM please put NEWSLETTER in the title!

Ask the Vet

Why is the Da2PP vaccination so important?

The Da2PP is a core vaccine for dogs is often referred to as the DA2PP or DHPP vaccine. This stands for "Distemper, Adenovirus Type 2 (Hepatitis), Parvo, and Parainfluenza", meaning that this vaccine protects against four different diseases. It is especially important for puppies to begin a series of vaccines at 6 to 8 weeks of age, as any immunity obtained from the mother decreases and puppies become very susceptible to potentially life-threatening diseases such as Canine Parvovirus (Parvo). Parvo can be transmitted through feces and can remain in the environment for at least one month, and up to a year if the conditions are right. This means that puppies do not need to be directly exposed to another dog that has Parvo in order to contract the disease, this means avoiding exposure to unknown dogs or public places until your puppy has finished their vaccine series. See you next month!

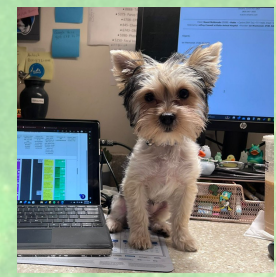

Interesting pet facts

New puppies have heat sensors in their noses to help find their moms while their eyes and ears are closed.

Cats' collarbones don't connect to their other bones, as these bones are buried in their shoulder muscles.

In ancient China, people kept warm by putting dogs up their sleeves.

We will be closing for a week at the end of April. For much needed renovations. Please refill your pets medications early!!

MEOWING NEWS! BARKING NEWS! MEOWING NEWS! BARKING NEWS!

Hello March... Spring is arriving and the flowers are budding! 

Here at the hotel we are preparing for Spring fever, and ready to accommodate all of your Pet Stay needs for those amazing Spring Break trips you are planning! Make sure to BOOK EARLY, since we will fill up quickly! For those of you who want to take your furry friends along for the vacation I have found some awesome Pet Friendly destinations! If Spring skiing or snowboarding is your fascination, the pet-friendly

Mountain Lodge in Telluride, is conveniently located slopeside with ski-in/out access and is just a few blocks away from the dog-friendly Gondola. The lodge welcomes 2 dogs for an additional fee of \$50 per night. Your canine companions are welcome to join you on eight miles of trails for skiing, hiking, snowshoeing and biking. If you would rather stay in-state, then Lake Tahoe is the destination for you.

The Hyatt Regency Lake Tahoe Resort greets furry guests with a "pawssport" containing homemade treats & doggy-doo bags at check-in. The hotel welcomes 2 dogs for an additional fee of \$40 per night. Pups can also ride along on the aerial tram! For those who are tired of the cold, and just want a nice warm beach vacation, then make your way down to Naples, FL.

The Waterfront Resort has a massive pool area and a marina onsite, where you can rent dog-friendly boats. Pets up to 40 lbs are allowed for an additional fee of \$75.

Sweetwater Adventures, rents dog-friendly paddle boards and kayaks. Let your land pup make new friends with some pups of the sea on a pet-friendly dolphin-watching cruise!

As always, if you would rather have a human only vacation, we are here to take care of your babies!

BOOK EARLY!!!!

Pets of the month:

This month we have some lovely guests we want to highlight as our pets of the month.

CAT: This month's fancy feline is none other than the handsomest tuxedo man, Seamus Michael Hat. March is the month celebrating the luck of the Irish, so it was only fitting to make this Irish monikered fella our feline star. Seamus is known for his hijinx and sassy attitude. He is a fan of treats and snuggles, and going for car rides, but definitely not a ride to the vet (even though his sister is Dr. Reed)! Congratulations Seamus on being March's Cat of the month.

DOG: Our darling Augie is this month's Dog of the month! Augie has been coming to daycare and boarding since he was a wee lad! He had his first birthday party with us and continues to delight staff and his fellow canines every day! Augie is known for his fun and energetic personality! He is always up for a tussle in the playroom with Rexx or Fergus, and is just a very excellent young man! Congratulations Augie, on being March's Dog of the Month!

Green Bark Beer for Dogs Recipe

(makes 1 cup)

Prep Time: 24 hours

Cook Time: None

1 cup chicken stock/ 2 tablespoons
frozen spinach, chopped

Pour the chicken stock into a pint
size mason jar. Chop up the spinach
and add to the jar.

The finer you chop it, the greener
the color. Let sit in the refrigerator
for roughly twenty four
hours, shaking it now and then.
Strain the spinach and pour into a
drinking bottle.

This can be stored in the
refrigerator for up to a week and
frozen for up to three months.

IMPORTANT NEWS!!

We will be closing for a week in April for renovations. We will let you know the dates soon. We will not be taking any boarding or daycare reservations.

Apologies for any inconvenience.
Have a wonderful March!
